HOUGH many medicines have been before the public for before the public for a much longer period than Wright's Indian Vegetable Pills, yet none stands now in higher repute, or has more rapidly attained a firm hold upon popular estimation. The THOUSANDS that have used them throughout the length and breadth of the republic, all bear cheer ful testimony to their thorough efficacy and mild operation when employed in the most distressing disorders which flest is heir

CONTAGIOUS DISEASES,

and changes of Temperament. and changes of Temperament.

WATER must be adapted to the fflesh, or there will be no propagation of the species.—

The soil must be adapted to the seed, or there will be no increase. The climate must have those matters in it which which will unite and keep alive epidem ical or centagicus poisons, or they will become extinguished, as a lamp that is unsupplied with oil. So tkewise with the Humin frame; It cancot be materially affected by epidemical or contagious maladies unless Humm frame; It cannot be materially affected by epidemical or contagious maladies unless there he those matters floating in the circulation which offer the appropriate soil. By purifying our bodies with the BRANDRETH PILL, which have affinity with those impurities upon which contagion feeds, we may always feel secure whatever diseases may rage around us. Trun, we, may have it, but it will be the affair of a three or two, while those who have been too wise we, may have it, but it will be the affair of a day or two, while those who have been too wise to use this simple and excellent remedy, either die or have weeks, perhaps months of sickness. Sudden changes from hot to chilly weather are uniavorable to health, and it is a fact universally admitted, that heat and moisture are

nowerful sgents in producing disease, and that constant DRY and constant WET weather are both favorable to its generation; it does not signify Whar we call it: it may be ague; it may be dysentary; bilious fever; it may be brotchis; it may be cholie; it may be consumption of the bowels; it may be inflammation of the someth; it may be inflammation of the stomach; it may be nervous affection; but still it is disease, and a disease curable by Brandreth Pills, beand a disease curable by Brandreth Pills, be-cause they remove all impurities from the body— sulfithat can in any manner feed the further progress of the malady no matter how called; thus these pills are not only the most proper medicine, but generally the only medicine that need or ought to be used. At the present time it is every man's duty who wishes to secure his health to use them, it is the duty of every one who knows anything of their health restoring who knows anything of their health restoring powers, to make it known in his immediate cir-cle. For there are some alarming signs, which tell of the app cach of diseases. The sudden changes of temperament are more to be feared and guarded against than any contagious malady
The INFLUENZA has left many in such a
state of weakness that there is in them a great

susceptibility to be affected by these changes of the atmosphere and contagious maladies; but by the timely use of Brandrell's Pills even how this susceptibility can be in a great measure removed, and power given to the system to resist these morbid poisons, and the sudden chan-ges in the weather with which it may be bro't in contact during the next 50 days. Nature has formed the bowels for the evacuation of all un-healthy humors, and if man would but use common sense, he would take care they performed this office faithfully. If the bowels are out of order if too slow or to fast, a few doses of Brandreth's Pills will bring them to order. Ask the man who was dying from constipated howels what cured him he tells you, Brandreth's Pill. Ask him who had had dysentary for six months and every remedy had failed; he will also tell you the Brandreth Pills cured him in a week.—
So with other diseases. Twelve Brandreth Pille, rubbed down in balf a pint of molasses, cured a little boy of an ulcer of the face which which a dozen doctors had tried to cure, but could not; the poor parents would have given half they were worth to have had it cured, but man they were worth to have had it caree, our every hing they tried did no good, until they gave it a teaspoonfull of molasses every day, in 1-2 a pint of which they had rubbed down 12 Brandreth pills; before the whole of the molasses was taken the ulcer was cured. And yet some foolish people call Brandreth's pills quack medicine. It would be well if there were a few more such quack medinines. Will all your pretended Sarsaparilla Compounds cure like the Brandreth's pills? Can they send you to ser-sons cured as Dr. Brandreth can? Can they sons cured as Dr. Brandreit can belowes point out to you people who had been helploss for years from Epilipsy and St. Vitas' Dance who have been cured by their remedies? If they cannot, Dr. Brandreth can. Can they point out to you a person who for twenty years had never had a stool without having used medicible or subjected masses, as whose the Brandreit of the Brandreit of the Brandreit out to you a person who for twenty years had never had a stool without having used medicible or subjected masses. icide or medicinal means, and whom the Bran-pills cured, in a month, and gave him as healthy evacuations, as he had when he was a child.—

If they cannot, Dr. Brandreth can.
The BRANDRETH Pills not only cure, all curable diseases, but it can be demonstrated, that by their timely use, they must infallibly cure. In a very short time, Dr Brandreth will bring before the public a concentration of the virtues of the Brandreth pills, both in the from of pills, and in the fluid and then he will explain the reason of the cures that most necessarily be the result of using BRANDRETHIAN REM EDIES, whether they be internal or external or external. I have just received the case of a medical gentleman, who resides in Sherbrook. Canada, who for twenty years was sorely af-flicted with a disease, which came out in blotchone. Within six months he was entirely cured of his miserable and tormenting disease by the use of the Brandreth pills. This valuable medicine is for sale at Dr BRANDRETH'S Office, 241 Broadway, and 276 Bowery, and 189 1 2 Hud-son street, at 25cts per box, with full directions Be careful you get the genuine; observe six sig-natures of Dr. Brandreth on cach box—three B. Brannreth and three Benjamin Brandreth.

It is now conceded by the most eminent of the medical faculty, that the stomach is the seat or fountain of all disease; that it is, as it were, the centre from which proceed all thee-vils produced by foreign or irritating causes, and which from thence spread to every part of the animal system.

the animal system.

The proper mode of cure, therefore, is to attack the citadel in which the disease extrenches itself, and no combination of medical agents has yet been discovered so efficacious for this purpose as the preparation of the late Dr Rush and which, from the universal success attend-ing their administration, during a practice of nearly half a century, were styled his "Infalli-ble Health Pill." Their great virtue is that they arrest disease in its first approach. They are preventives as well as remedies and we are preventives as well as remedies and we will venture to say, that if taken by persons when they are first affected with symptoms of illness, many and many a case that is either se-ONLY 124 cents a box, the cheapest and the best medicine ever known.—Sold at the principal office 30 Ann st. DR, JAYNE'S EXPECTORANT .- This in-Ash NESSEAPECTORANT—This invaluable medicine is daily effecting some of the mest astonishing and wonderful cures that have ever been known. All who have used it for Asthma, Coughs, Spitting of Blood, Hooping Cough, Croup or Hives, Consumption, Chronic Pleurisy, Hoarseness, Pain and Soteness of the Breast, difficulty of Breathing, and every other disease of the LUNGS and BREAST, can and do attest to its usefulness. BRONCHITIS, a disease attest to its usefulness. BRONCHITIS, h discuss which is unually sweeping thousands open thousands to a premature grave, under the mistaken hame of Consumption, is always cured by it. The usual symptoms of this discuss (Bronchitis) are Cough, Soreness of the Lungs or Throat, Hoarseness, Difficulty of Breathing, Asthma, Hectic Feyer, a spitting up of phlegm or matter, and sometimes blood. It is an inflamation of the fine skin which lines the inside of the whole of the wind tubes of air vessels. the whole of the wind tubes of air yessels, which run through every p rt of the Lungs.—
This Expectorant immediately suppresses the Cough, Pain, Inflamation, Fever, and difficulty of Bresthing, and produces a free and easy Ex-

pectoration, and a cure is soon effected.

Italways cures Astrima—two or three large does will cure the CROUP or HIVES of children in from fifteen minutes to an hour's time. It menediately subdues the violence of morping corgs and effects a speedy cure. Hondreds who have been given up by their physicians as incurable with "Consumption," have been re-

stored to perfect health by it. ONLY GIVE IT A FAIR TRIAL .- We ask no more of any one than to give Dr. Jayne's Expectorant a fair trial, and if it does not cure the various diseases for which it is recommended sooner or more effectually than any other med-icine that has ever been offered to the public, the proprietoris willing to undergo any penalty, however, severe, the public may see proper to impose upon him. It has, it will, upd it can core coughs, colds, asthma, broachits, bleeding from the longs or threat, whooping cough; croop, and a very large majority of the most hopeless cases of consumption, when physicians and their prescriptions fad to do any good. Again we say, try it. It will not harm you, but must and will po you good. It is prepared only by Dr. D. Jaynu, No. 20 South Third street, Philadelphia, and No. 205 Broadway. New York. York. Price \$1 per bottle.

IS THERE BALM IN GILEAD !- Was the pathetic exclamation of the prophet of Isreal as he beheld the degradation and miseries of his people—and does not the heart of the phranthropast move with emotions of commercian and sorrow as he witnesses the hopeles and helpless condition of thousands dying all avenued in with and acipiess condition of thousands dying all a-round in with Consumption, and other pulmo-nary affections, and to ask, "is there no balm that can heal them?" nor physicians to rescue them from death? Yes, there is a balm that will heal them, and at once arrest those fatal diseases and restore them to health. It is found in Jayne's Expectonant, which never fails to relieve.
